

PercoTop® for commercial vehicles

BEST-IN-CLASS, DURABLE FINISH

AXALTA COATING SYSTEMS

IMAGE AND RECOGNITION FORM THE FOUNDATION OF MOST COMPANIES' BRANDS

From logos to packaging, every detail serves as a crucial customer touchpoint. Commercial vehicles function as mobile marketing platforms. At Axalta Coating Systems, we recognize the significance of brand and image to our customers. As a result, we've ensured that our high-quality commercial vehicle paint system, PercoTop®, not only enhances aesthetics but also delivers in colour, performance, and reliability.

That's why numerous leading manufacturers of commercial vehicles, trailers, and truck components have relied on our expertise for decades. They choose PercoTop® for its uniqueness and ease of use. Our robust quality ensures durability, while our color matching system is accurate, quick, and efficient.

Whether it's a refrigerated box superstructure, a standard trailer, concrete mixer, a mobile crane, bus, the chassis of an HGV, anything on or behind the cab, PercoTop® gives coaters flexibility in application, brilliance of appearance and the critical performance characteristics necessary to protect vehicle surfaces from weathering, graffiti and corrosion. PercoTop® has the added benefit of being very robust in application—especially on large surfaces or on complex shapes—and dries very quickly. With PercoTop® you don't just get the paint, but all the knowledge and support, backed by Axalta Coating Systems.

PercoTop®: The ideal paint system solution

Discover the diversity of commercial vehicles and trailers—each unique in material and design, spanning from aluminum to steel, plastic to glass-reinforced polyester. Despite this variety, every surface demands a flawless finish that not only maintains uniformity but also captivates, playing a crucial role in marketing. Enduring through weather, mechanical stress, chemical exposure, and UV radiation, commercial vehicle coatings must uphold their excellent finish.

Enter PercoTop®: The comprehensive paint system tailored for commercial vehicle components, trailers and buses. From primers to topcoats, PercoTop® ensures robust, durable protection, maintaining its mechanical properties and color vibrancy over time. Whether safeguarding against environmental elements or meeting rigorous durability standards, PercoTop® stands ready as your ideal paint system solution.

PERCOTOP® PERFORMANCE HIGHLIGHTS

- Uniform colour and texture
- Extensive colour range
- Superior productivity from improved processes
- Extremely tough durability
- Considerable pollution resilience
- Scientifically-proven performance
- Various gloss levels from high-gloss to matt
- Good coverage from highly pigmented paints
- Lead-free
- ISO 9001 and ISO TS 16949 certified manufacturing, R&D and quality management

Flexible and efficient

PercoTop® is a particularly user-friendly and efficient coatings system. It is also uniquely innovative. Thanks to an advanced tints and binder system, more than 15,000 colours can be produced quickly and effectively. While perfectly coordinated components minimize mistakes, the modular system also means less capital is tied up in inventory. Larger paint quantities are available in ready-mixed color batches tailored to individual customer specifications.

Well-matched primer materials provide excellent adhesion and outstanding corrosion protection, while clears create optimum surface finish. This flexibility of the PercoTop® system and its high level of performance ensures a wide range of applications. In addition, special additives are available to achieve various degrees of gloss. From matt to high-gloss, from Medium Solids to VOC compliant High-Solids—PercoTop® will meet all your commercial finishing needs.

Axalta supplies all the major heavy-duty truck manufacturers and Axalta can offer any colour that they offer on their trucks.

ANY COLOUR, ANY TIME.

MORE THAN
15,000
COLOURS

Support when you need it

At Axalta Coating Systems, we pride ourselves on our commitment to customer support and satisfaction. We understand the unique needs of our customers, and when you choose PercoTop® for commercial vehicles, you're not just selecting a paint system; you're gaining access to specialized support. Our dedicated team of experts is here to assist you with process enhancements, application training, specification documents, and selecting the ideal paint systems for any substrate and vehicle shape, including large surfaces with overlapping spray zones.

As part of our dedication to our customers, we have ensured that PercoTop® is both user-friendly and efficient. The paint can be applied with all customary application equipment, from conventional spray-guns to high-pressure, airless, or air-mix coating processes. PercoTop® dries consistently whether by air, oven baking, or infrared methods.

The result? A flawless coating, every time.

PERCOTOP® APPLICATION HIGHLIGHTS

- Great flexibility in colour matching
- Highly efficient modular coating system
- VOC-compliant thanks to modern HS technology
- Wide application window
- Excellent sagging resistance
- Fast-drying
- Multi-toning
- Colour and application support
- Comprehensive training programmes
- Direct to metal and structure topcoat systems available as add-ons
- Special primers for corrosion protection in marine environments
- Percotop® clear coats are compatible with Centari® base coats—our job is to make yours easier

About Axalta

Axalta is a global leader in the coatings industry, providing customers with innovative, colorful, beautiful, and sustainable coatings solutions. From light vehicles, commercial vehicles and refinish applications to electric motors, building facades and other industrial applications, our coatings are designed to prevent corrosion, increase productivity, and enhance durability.

With more than 150 years of experience in the coatings industry, the global team at Axalta continues to find ways to serve our more than 100,000 customers in over 130 countries better every day with the finest coatings, application systems and technology.
